

1. Why proteins are important for our body?

2. Classify proteins on the basis of its functions.

- a. Structural
- b. Regulatory
- c. Transport
- d. Respiratory
- e. Genetic
- f. Defense
- g. Receptor
- h. Catalytic
- i. Storage
- j. Contractile

3. Classify proteins on the basis of its chemical nature and solubility.

4. Describe the nutritional classification of proteins

- a. Complete
- b. Partially incomplete
- c. Incomplete

5. Classify proteins on the basis of its levels of organization.

- a. Primary structure
- b. Secondary structure
- c. Tertiary structure
- d. Quaternary structure

6. How protein digestion take place in our body?

- a. Digestion in stomach
- b. Digestion in small intestine
